Re: W. R. Grace Settlement

Dear Paul:

I am writing as to the status of getting the dispute between the city and W.R. Grace resolved. I last talked to you almost a month ago. It was my understanding that you had shared the city's proposal with W.R. Grace. It was my understanding that W.R. Grace did not agree with the city's proposal. I had stated that if W.R. Grace made their own proposal in writing that I would certainly relay any offer to the city. You also asked me to relay to the city the idea of using the area as a park.

The city of Libby is anxious to get this matter resolved. At the least, the old vacant buildings should be removed, even if all issues have not been resolved. I look forward to hearing from you as to the process that might be started to get this matter resolved.

Sincerely yours,

Scott B. Spencer  
Attorney at Law
